

Electrical properties for Nano coatings

Coating Thickness	Surface Resistance (Ω)	Volume Resistance (Ωm)
0.05 μm	Conductive	Conductive
0.1 μm	Conductive	4×10^{20}
0.5 μm	1×10^9	8×10^{20}
1.0 μm	5×10^{11}	ND
2.0 μm	2×10^{14}	ND
>100 μm	2×10^{17}	ND

Electrical properties determined on aluminum plates. Measurements presented are approximate.
